

Audit

Audit Configuration

All measurements collected via Lighthouse in an incognito window of Chrome v[**X**] with **Mobile** configuration (Category: Performance, Device: Mobile) on [**Y**]'s computer at the office (**Z**).

All unnecessary programs and processes were shut down to increase consistency and reliability of measurements.

Audited web property:

- Home Page [The tested URL]
- Detail Page [The tested URL]

Baseline Audit

The median of **[3/5]** samples is used for each audit.

	Home Page	Detail Page
First Contentful Paint (seconds)		
Largest Contentful Paint (seconds)		
Time to Interactive (seconds)		
Lighthouse Perf Score		

Observations

[Write down observations, interpretations and suggest solutions / improvements.]

Next Audit

The median of 3/5 samples is used for each audit.
